ANKUSHI COINS

Ankushi coins, with *ankush* as the mint mark, are generally attributed to Poona mint but these coins were minted from a number of mints in Maharashtra. Some of the mints that produced Ankushi coins are Chinchwad, Belapur, Bhatodi, Kolaba, Kumalgarh, Phulgaon, Tembhurni and Chambagonda. The then local money changers could easily differentiate issues of all these mints by their weight and degrees of purity. However, details of these are not available to numismatists for their classification. As a result, such Ankushi coins have been catalogued together in the following pages.
